

Make Glass Come Alive With Color, Patterns and Eye-catching Graphics

Custom film printing is a great alternative to stock designs and can be used for interior decorating and privacy. The possibilities are endless - create beautiful, full color murals and patterns, visually soften an entryway, dress up a retail window display, add privacy to office work spaces and more.

Printable films from Madico are optically clear and available in two different adhesive types. Select films also block UV rays or offer a scratch-resistant coating for use in higher traffic areas.

Common Applications:

- Retail windows & displays
- Interior decorating
- Hospitals and doctors' offices
- Lobbies and elevators
- Passenger transport glass
- Restaurants & hotels
- Office partitions and conference rooms

Key Features:

- Optically clear
- UV ink compatible
- Print CMYK + white
- Graphics look great from both sides of the glass
- UV blocking (select films)
- Scratch-resistant coating (select films)
- Available with removable and permanent adhesive

*Translucent
